- 2.4 Unless otherwise provided in the Tender Documents, the prices given by the Bidder shall be fixed throughout the execution of the contract and shall not be subject to any change in any aspect. A bid submitted at a variable price that does not comply with this paragraph shall be rejected by the Contracting Authority as inadmissible.

The Bidder may reject such request in writing without losing the right to compensation of the bid security, if any. If a Bidder accepts to extend the validity period, it shall notify the Contracting Authority in writing, and shall submit an extended Bid Security, if any. The Bid shall not be modified. If the Bidder does not respond to the request made by the Contracting Authority regarding the extension of bid validity period, or does not accept the request, or does not present an extended bid security, if required, the Contracting Authority may reject the Bid.

2.9 Unlawful actions under Article 26 of the Law on Public Procurement.

Section 3. Evaluation of proposals

3.1 Selection criteria

(Option 1) Lowest Qualified Bid Price.

The contract shall be awarded to the Bidder who has offered the lowest bid price.

(Option 2) The most economically advantageous offer.

The evaluation criteria shall clearly define the specific weight of each criterion, i.e. how many points each criterion shall have and how the points shall be calculated for successive bidders.

All criteria set for the evaluation of bids shall be as objective as possible and expressed in figures. In any case where the criteria are more than one, the weight of the price criterion shall not be less than 50 points.

The maximum points that an offer may receive shall be 100.

The formula by which the bidders' points will be calculated in this case shall be: $P_o = P_{k1} + P_{k2} + P_{k3} + \dots$

Where:

P_o - are the total points of the evaluated bid

$P_{k1} / P_{k2} / P_{k3} / \dots$ - are the points for each evaluated criterion

The points for each criterion are calculated according to the formula:

$$P_{k1} = V_{min\ k1} \times P_{max\ k1} / O_{k1}$$

P_{k1} _____ Criteria points to be evaluated

$V_{min\ k1}$ _____ The lowest value of the criterion to be evaluated

$P_{max\ k1}$ _____ Maximum points given to the criterion being evaluated

O_{k1} _____ Bid indicator for the criterion to be evaluated

Clarification: Only one of the options shall be selected as the evaluation criterion. Completing both options shall make the procedure invalid.

3.2 Correction of errors and removed parts

3.2.1 The Contracting Authority shall correct such errors in the economic proposal that are simply of an arithmetical nature, if the error is found during the review of proposals. The Contracting Authority shall immediately notify the Bidder concerned with a notice in writing/by email

on any such rectification and may proceed with the correction of the error, provided that the Bidder accepts such communication. If the Bidder refuses the correction proposed, the proposal shall be rejected, without seizure of bid security, if any.

3.2.2 Errors in the price calculation shall be rectified by the Contracting Authority as follows:

- a) if there is any discrepancy between amounts in figures and those in words, the amounts expressed in words shall prevail, except when the concerned amount relates to an arithmetical error,
- b) if there is any discrepancy between the unit price and the total value obtained by multiplying the unit price and the quantity, the unit price shall prevail and consequently the total sum shall be corrected,
- c) if there is any error in the total sum, corresponding to the addition or subtraction of subtotals, the subtotal shall prevail and the total shall be corrected. The amounts rectified in this way shall be binding to the bidder. If the bidder does not accept them, its bid shall be rejected. *The Bids with arithmetical errors shall be rejected when the absolute amounts of all corrections shall be more than $\pm 2\%$ of the value of the economic bid offered.*

3.4 Abnormally low bids

3.4.1 If the submitted bid is abnormally low in relation to the works offered, then the Contracting Authority shall ask the Bidder in question to justify the price offered. If the Bidder fails to provide an excuse to convince the Contracting Authority, then the latter shall have the right to reject the bid

3.4.2 The bid shall be considered abnormally low according to the definition in Article 66 of Chapter VII of the PPR

In case two or less bids are valid, in accordance with Article 56 of the PPL, the bid shall be considered abnormally low when it is reduced by more than 25 percent of the accrued limit fund.

In case three or more bids are valid, in accordance with article 56 of the PPL, the bid shall be considered abnormally low if its value will be less than 85 percent of the average of valid bids.

If one or several bids are evaluated as abnormally low, the bid evaluation committee shall seek clarification from the bidders, before deciding whether to qualify them or not, in accordance with Article 56 of the PPL.

In any case, the bidder shall have the obligation to provide arguments on and document through written evidence the explanations on the special element / elements of the bid, in accordance with the requirements under Article 56 of the PPL.

The formula that will be applied to qualify an abnormally low bid, in case there are three or more valid bids shall be as follows:

O – Offer

M_o – Average Valid Bids
 n - Number of valid Bids
 P_A - Possible Discount

$$M_o = O_1 + O_2 + O_3 + \dots O_n / n$$
$$P_A = 85 \% M_o$$

Bid Value Estimated <.. P_A , **therefore the Offer is Abnormally Low**

In the case when the evaluation criterion selected is the most economically favorable bid, it shall be verified if the bids are abnormally low only if the bid classified with the highest points shall have the economic bid with the lowest value

3.5 Administrative complaint available to Economic Operators pursuant to Article 63 of the PPL.

Section 4. Contract Signing

4.1 Winner Notification

The Contracting Authority shall notify the winning Bidder, by sending a winner notice, pursuant to Appendix 16. A copy of such notice shall be published on the Public Notices Bulletin, as provided for in Article 58 of the PPL.

4.2 Contract Security

4.2.1 The Contracting Authority shall demand a security for the contract execution. The contract execution security amount shall be at 10 % of the contract value. The Contract Security Form, according to Appendix 20 of the TDs, shall be signed and submitted before the contract signing.

4.2.2 The contract execution security may be submitted in any of the following forms:
