## Prolongation exercise 2022

It is necessary to amend the end date for the mandatory review for certain amount of products currently listed in the Annex to Regulation (EU) No 1387/2013 in order to allow duty-free imports beyond 31.12.2021.

The autonomous Common Customs Tariff duty suspensions for those products have been reviewed and new revised dates should be set for their next mandatory review

Please find attached an excel table listing suspension measures subject to the prolongation exercise for cycle 2022-01.

We note the following:

The items indicated by string "≥15000/green" in column "Status" will be prolonged automatically until 31.12.2026 except in cases where: the negotiations for the cycle 2021-07 led to another conclusion, or possible economic objections submitted within the upcoming cycle 2022-01

In addition, pending on the opinion of  $\underline{\text{DG AGRI}}$ , within the deadline of 26<sup>th</sup> of April 2021, certain suspension measures (e.g. Palm oil) can be prolonged for one or more years,

The cases marked as being "<15000/red" will expire by the end of 2021, unless a request for prolongation will be issued (pursuant to Commission communication OJ C 363, 13.12.2011, p. 6.) in due time by Member State authorities acting on behalf of EU producers. In such a case one year prolongation (until the end of 2022) will be considered,

The cases marked with "UK susp.\_deletion or EU27 producer" indicate suspensions where UK was the only applicant, but the suspension was used sufficiently by EU27. The suspension will be deleted by the end of 2021, unless a request for prolongation will be issued (pursuant to Commission communication OJ C 363, 13.12.2011, p. 6.) in due time by Member State authorities acting on behalf of EU producers.

In the absence of any comments by your side until the  $\underline{26^{th}}$  of April  $\underline{2021}$  the aforementioned procedure is deemed to be agreed.
